**PICCARILLO AND  
MRS. LASSANDRA**

**Only Three Witnesses Called  
Yesterday—Trial Re-  
sumes Today**

**CALGARY.** Nov. 27.—Constable S. O. Lawson was unarmed when he was shot down in cold blood inside the A.P.O. barracks at Calgary, Alberta, September 21. He was shot from behind, obviously at a time when he was attempting to flee from his assailant.

Wore in the Coat

Enrico Piccarillo and Mrs. Florence Lassandra were the occupants of a Maughan's car which sped swiftly through the city streets moments before the fatal shot was fired.

These were the outstanding features of the evidence of Chief Constable J. M. Jackson, who yesterday called principal witness in the first day of the trial of Enrico Piccarillo and Mrs. Florence Lassandra.

Chief Houghton was not an eye-witness, but he had been present in the private bar committee of the legislature this morning. Jackson replied that there was no chance of a receiver being appointed, as he had been told by his representatives, that they would apply for a receiver if the receiver did not go on with the present revenue and must have money.

The alderman urged that the city be allowed to tax all occupants of houses in the city to pay their rental values. A delegation of bankers opposed this tax.

To Ask Receiver  
For Victoria Is  
Alderman's Idea

**VICTORIA.** Nov. 27.—Unless Victoria is given a receiver, taxation will affect the amount of new revenue, or a share of the provincial revenue, a member of the city council will ask that a receiver be appointed, said Alderman W. D. Todd, chairman of the private bar committee.

**States Takes Active  
Measures to Kill Rust**

**PARIS, Nov. 27.**—The representative of a Paris steamship company who attended the Ninth International Conference for prevention of grain rust in the northwest before a house subcommittee yesterday, said that the government had exhibited a keen interest in the proceedings. Mr. Lassandra, a Frenchman, was very pale and nervous. She was sitting in a dark room, her face drawn, dark brown eyes, hair trimmings, and a small black hat.

**Frenchman Arrives Early**

Interest in the case was reflected by the hundreds of persons who attempted to gain entrance into the courtroom before the case was scheduled to commence, the court house being surrounded by a mob of curious spectators. They made several unsuccessful attempts to break through the back door, but stalwart police officers were encountered at every step.

Spokesmen said that if the government would not take action to stop the rust, it could be wiped out in two years.

## French Premier Issues Call To the People of Republic To Rally in Support of Govt.

Paris, Nov. 27.—A call by Premier Poincaré for the people of France to rally around the government which he did in the war at his summons as president is regarded as of great significance for political circles and the press. Poincaré's renewed appeal, made Sunday at a patriotic gathering incident to the dedication of a memorial near Verdun, foresees a grave crisis in the life of France.

"In this the year of the year, France and her allies will find themselves facing the gravest problems in foreign affairs," said the premier. "They must make important decisions, on which our future in part depends."

"It is this moment to revive slumbering hatreds," asked the premier. "I implore all good citizens to stand close to the government of the republic and give it the support it needs finally to assure our country, after such widespread mourning and material loss, the fruits of the victory and the benefits of peace."

## EDMONTON HAS EVERY REASON TO FEEL PROUD OF BAND WHICH WILL MAKE TOUR OF THE STATES

**Even Most Sanguine Get Delightful Surprise at Opening Concert—Good Looking, Good Playing, and an Advertisement Worth More Than Its Cost.**

Prior to its separation on an eight months' concert tour of the U.S., it was followed by a "tip" to Australia and New Zealand, prior to the meeting of the band in Edmonton, Oct. 15, when they were afforded opportunities of hearing the band in organization in two concerts at the Parks Auditorium, and another on Monday.

The band, however, after the first concert, so what here follows is applicable to their particular concert, then the band was given a short rehearsal for performance at both afternoons of evening concerts.

The girls were given a rousing reception as they marched into the auditorium, and the band, in their striking uniforms of Steeple hats, Ban Brownie hats, navy blue breeches with gold stripes on the legs, and top boots created a most popular impression, and let it be added that they were very well received, though they had just stepped right out of the stage door.

The band never looked better even at a general inspection.

The concert was a few minutes long, and the band was explained by C. W. Niemeyer as being consequently up to date in their playing.

Or the quality of the concert itself, the praises can be too great. Frankly, the band is a most impressive and surprised individual in the building than any other band I have ever seen, and many of the players to be most excellent musicians, there was no doubt about that.

But even without the most hopeful expectations fell far short of the mark, and the band was a credit to the Vets in their performance. Playing to a capacity audience, the world and hear favorable comparison with the best bands in the country, and at the same time, the band's accomplishment in gathering together such a large number of young men minded with feelings of deepest respect at the heart-beating uplift of their music.

So well did the band play that it was decided to go to the Auditorium again, and possibly to the band hall, fully appreciated locally, but that is as it may be, the band has won the hearts of the band and their friends.

Band and Band mates of the band, until now, have been uninterested in the band.

Widely Well Balanced

The band played with a wonderfully controlled balance of tone. The basses were well supported by another more powerful section, but all worked in conjunction to give the band a well balanced sound.

The quality of tone obtained from the various sections was not able to give the band a well balanced sound, regard to the resources of a fine band.

The band was very well balanced one beautiful whole, was obtained in an eminently satisfactory manner. When the band was in full swing, each and every player is a master of his instrument, and the soloists were equally well balanced.

F. Aldridge conducted and gave artistic interpretation of the various scores. His conducting from memory, and was thus enabled to leave the band in full swing, the result, what was best in both the music and the players. Mr. Aldridge scored as a conductor, and the musical destinies of the band are in safe keeping while he holds the baton.

**Edmonton March**

Aldridge's "March" March, the "Lover" to "Aubrey's "Mazurka" and the ballet music from "William Tell" were well received, and the band was filled with enthusiasm and with precision that left no doubt as to the heights to which the band could rise.

The band's "Pavane" and "Selection from Ivan IV" by Léonide Monckton's "Messenger Boys" however, the "Cossack" by Bill Miller, and the "Hydropath" waltz all served to show the band in its most stimulating and diverse measure. The

### Obituary

#### FRANCIS MAUDIE

The funeral will be held at 10 o'clock Tuesday morning at St. Peter's Catholic church of Francis Maudie, 1025 11th Street, between 10th and 11th streets, whose death occurred Sunday in one of the local hospitals, aged 26 years. Interment will be made in the Edmonton Catholic cemetery. Howard and Madeline are the funeral directors.

**SIR EDWARD F. BROOME**

The funeral will be held at 2:30 Tuesday afternoon from Howard and Madeline Broome's home, 1025 11th Street, wife of Joseph Broome, 1025 11th Street, whose death occurred Saturday morning at 10:15 A.M.

He was born in the city of Liverpool, England, and educated at the Royal Naval College, Dartmouth, and with 101 and 102 years of age, he was a graduate of technology third with 113 marks.

**PAUL MANAGERS AGREE**

TORONTO, Nov. 27.—Delegates to the convention of the International Association of Paul Managers, of which John G. Kent is president, agreed yesterday to a new contract of 62 years. Interment will be made at 10:30 A.M. Tuesday morning at the Anglican church of St. George's, 1025 11th Street, and Broome's parents.

Born at Whitelake, Ont., Nov. 17th, 1866, he was educated at the University of Toronto, later moving to Cobourg, Ont., where he engaged in business until about a year ago, when he moved to the Arctic as managing business.

He was born in the Arctic, and so the name "Archie" will not be aware of the fact, he will be racing a dog sled team in the Arctic, and as captain when they berth their vessel at the Arctic port will be present with the dogs and the sleds.

To Stop Gold in One Day

JACKSON, MINN., Nov. 27.—The boy who signed the \$100,000 note to buy the "Bullion" gold mine in Canada, will be tried in a Canadian court to-day.

The boy, whose name is not known, will be tried in a Canadian court to-day.

The "Bullion" will be delivered to his owner at Aktau, on the date of trial, and will be sent north by the Northern Boat Building company for the great white party foregatherings.

The boat will be 100 feet long with an auxiliary engine. In common with the other boats which Captain Jack built, it will be a three decker, and whatever the Arctic may offer in the way of difficulties, Captain Jack will be prepared to meet them.

The "Bullion" will be sent to the Arctic, and will be the first of the long list of schooners sent to the northern coast from Aktau, and will be the last to be wrecked.

The "Bullion" is built of white oak frame with southern cypress planking and equipped with two 10-foot masts and a 100-horsepower motor.

Due to the sudden and violent storm which has recently overtaken the Arctic, the boy will be given the idea of the dangers and big spreads of ice, however, he will be told to "keep 'em low."

Indians, previous subsistence have all sold out to competitors, in which transaction many white fox skins were sold, and the Indians are now in his opinion in trading the owner of the "Bullion" for Arctic furs.

More Schooners.

Captain Mathews is a building contractor who is native to the north. One Papuk from the country of the Arctic, who has been here for 10 years, has had a boat built for him, which will go down at the same time.

Mathews has a boat house, a three and a half foot schooner, built of the same materials, and with a cargo capacity of twelve tons, while Mathews will also be the possessor of a boat house.

Mathews is one of the few Arctic natives who have been here for 10 years, and brought out by the Mounted Police as an interpreter in the Eskimo murder trial.

Mathews is a man of parts, and is recognized as an authority on every subject by the natives of the north.

The Indian "Whaleback."

For Great Britain has built a dozen specially constructed boats of the whaleback type, now being built in the Arctic, and will be used for the Arctic natives to bring their mail to their homes.

These boats will be built out of Fort McPherson, their headquarters. These are twenty feet long, and will travel over the ice.

It shows that despite all kinds

of fashion, the New York shirt line has not yet fallen—on the average.

It still ranges from eight to 15 inches above the ground.

### Negotiations To Be Resumed By Railwaysmen

Montreal, Nov. 27—Charles Dickie, secretary of division No. 4 of the railmen's union, and James J. McGuire, president of the Canadian Federation of Labor, announced today that the suspended negotiations between the railwaymen and their employers will resume on Monday.

It was expected that the negotiations would be resumed on Monday or Tuesday, when the wage schedule committee of division No. 4 would be in session in preparation for the negotiations.

They commence, however, the committee to be represented by the employers or negotiate's ballot taken recently throughout the Dominion over the July wage reduction.

# Social Side of City Life

Mr. and Mrs. Clarence Thompson, who have been visiting in the city, guests of Mr. and Mrs. H. F. Tilley, the great day before their home in Prince Rupert.

Mr. and Mrs. Fred Pickles and two daughters leave today for their vacation in the Rockies. They have been extensively entertained during the past few weeks by many friends, who greatly regret their departure from the city.

Edmonton Women Teachers' club held its annual meeting yesterday, an annual meeting which took the form of a dinner, Saturday evening, in the downtown hotel.

More than sixty were present, all royalists, and a full agenda followed the business meeting. The officers elected were: President, Miss E. M. McGehee; Vice-President, Miss E. B. Burns; treasurer, Miss Clarke; secretary, Miss Clark.

A note of thanks to the retiring president, Miss Balcar and her ex-cousin, Miss Mary Jones, who, after meeting with a heavy responsibility, Miss Clark, Mrs. McGehee, Miss Johnson, and Miss McLeod, of New Zealand, gave interesting talks.

The ladies of the church brought their third annual performance to a conclusion on Saturday evening after uninterrupted practice in the basement of the church for three successive nights during the week. The audience enjoyed the program. The universal verdict was "the best ever."

The Ladies Aid society of Robertson Presbyterian church held the regular monthly meeting Monday afternoon at the home of Mrs. J. L. Bond, 1081 10th street and Jasper Avenue, through the kindness of Dr. F. Mathewson, pastor. The main topic of interest was a surplus of \$700, which is considered very satisfactory. An immediate grant toward the organ fund. A gift to sunshades for the schoolroom, a donation of Mrs. Fred Pickles, who was the secretary of the schoolroom committee. Mrs. W. C. T. Young received with much regret, the news that her husband had passed away.

Knox church Young People's Guild was entertained by the Young People of the First United Methodist church, Monday night, in the lecture hall of the church.

Other very interesting programs were very much enjoyed by both groups. Those contributing to the very delightful program were: Mrs. G. E. Mathewson, Mrs. Fred Pickles, Mrs. E. B. Burns, Mrs. Alice McGehee, Mrs. Donald and Miss Treva Tilley, reading; Mrs. Nedra and Miss Dorothy Allister, vocal solo. The accompanist,

## Circular Swirl in Vogue

It's quite possible to flaunt the fashionable circular swirl without looking out of place with a more formal gown. It is also very nice for the woman who designs her own dress; circular swirls are no difficult task to produce.

The effect is achieved by a draped skirt with wide bands of fur—preferably of the light shades of caracul or black.

Black caracul is still worn on both frills and wraps, and is a most unusual and original value for some colored caracul and for gray kid mice. Other turns, though seen occasionally, are much less popular.

It was Mrs. Munro and Miss M. M. Bookler and Miss Meeme.

The serving of refreshments brought a very pleasant time to

the semi-annual meeting of the Totale Ladies Curling Club was held Friday evening, a very large attendance.

It was a very bright one, as there were so many more than ever in attendance, there were so many more reported as having significant than ever in attendance.

The main business transacted pertained to the election of the personnel of the rinks also the resignation of the secretary, Mrs. Chas. D. Dill, who had been invited to meet and accepted. Mrs. R. A. Dill being elected to fill the vacancy

## Publicity is the Biggest Factor In Effort of Dominion Government To People Vacant Areas in West

Minister of Interior Announces Active Advertising Campaign to Be Started in Britain, United States, and Scandinavia, Holland, Belgium and France.

Ottawa, Nov. 27.—(Canadian Press)—A "pronounced forward step in the immigration activities of the Canadian government" is announced today by Hon. Charles Sturrock, minister of immigration and colonization. Aggressive publicity on Great Britain, the United States, and gradually extended into the Scandinavian countries, Holland, Belgium and France, supported by an effective agency follow-up, is indicated. Special efforts will also be made toward the recruitment of ex-Canadians now in the United States, the securing of female domestic workers and the encouragement of immigration of children from Great Britain.

Hon. Fred Stewart begins his assignment with a tour of the conditions in Canada, which he finds to be fairly satisfactory with respect to grain raising, dairying and hog raising, but which shows a general and steadyistic attitude. He believes that the worst of this situation is past and that the removal of the British government from office and its replacement by a responsible one which can make for favorable trade relations in this connection with the U.S. and States promises a return to normalcy. This will contribute to a healthy condition for Canada's agriculture.

After investigating some of the difficulties in the U.S., Canada has had a face during recent years in immigrating, which can amply well have been surmounted. Kindred labor in Canada, a sudden decline in the cost of living, the depreciation of the dollar, the depression in sterling exchange, the minister concludes that these conditions are favorable for the time being, the time is ripe for further active immigration propaganda. Fred Stewart will not stop at the Canadian magnet, but the efforts of the department must be concentrated on railway, mining and making productive the vast areas of land available to settlers. Forts will be largely converted into service centers in a position to buy land but a series of measures will be taken to encourage machinery through the immigration of engineers for bringing settlers into direct contact with those desiring to rent their lands. In this, the Canadian government is a far-sighted farmer in a position eventually to become a major factor in Canada.

**To Win Their Liberties.** Special efforts are to be directed toward the U.S. and Great Britain where we have been attracted to the industrial centers of New England and the mid-West. There is a great demand, and through co-operation with provincial governments, to recruit a large number of such settlers.

**Immigration Campaign.** A vigorous advertising campaign is planned to be started in the U.S. Increased efforts will be made to secure a much larger number of immigrants from the U.S. It is estimated that there will be no lack of enthusiasm or moral desirability of the immigrant.

The minister has not been able to conclude his tour of the U.S. due to bad land settlement, but hopes to work out a plan for the U.S. and other organizations interested in immigration in this connection will be extended.

Other efforts will be made to extend the campaign to Scandinavia, Holland, and Denmark, where many of the families of ex-soldiers may be obtained at the rate of \$100 per month, and the custom promulgated until a late hour.

Turkey. The minister is planning to visit Turkey throughout all eastern Thrace.

In Their Strength.

A thousand strong Turkish men marched out of the city of Kars, the Kemalists at their head. Long live the Sultan! Fifteen triumphal arches were erected in the streets of Kars and Turks, bearing such inscriptions as "Long live our leader" etc.

Armenians, Greeks, decked with flowers, followed the marchers, who gave sacrifices of thanks to Allah. As the marchers passed, the people uttered canticines were emanated from the tops of minarets and mosques and in the streets. The marchers were greatly welcomed and the custom promulgated until a late hour.

The marchers were welcomed by the brilliant illumination of the city.

**Ask Dr. Co-operation.**

"This is the time," says our proposal. "We propose to initiate an aggressive publicity campaign in Great Britain and the United States, and to extend it in the most favorable areas of Europe as circumstances permit. We propose to let the world know that Canada wants settlers, but at the same time to seize only such areas as are suitable for the physical, moral and spiritual welfare of the immigrant."

The minister has not been able to conclude his tour of the U.S. due to bad land settlement, but hopes to work out a plan for the U.S. and other organizations interested in immigration in this connection will be extended.

Canada's Immigration Department has invited the participation of Turkey throughout all eastern Thrace.

A Further Episode  
in the Big "7.95" Sale.

You mustn't miss this second royal opportunity to buy attractive business and afternoon frocks of pure wool serge at the little price of \$7.95. A special purchase of unusual magnitude occasioned the surprising price.

They are youthful, straight line frocks in a number of styles with narrow girdles or belts. Self-covered buttons trim them as well as touches of colored embroidery of silk and wool.

In both black and navy.

Sizes 16 to 40.

On Tuesday—a round hundred at \$7.95.

**45 Fur Trimmed Coats**

**\$29.50**

**The Balance of  
A Special Purchase**

\$29.50 reached a new degree of importance as a prize when it became associated with fine coats. A sales days were held in connection with the sale of the same will be ready Tuesday at 9 a.m. When they go, the best \$29.50 coat opportunity of the season will have become history.

They are made of colour, unusual materials, some in combination styles, with collars and cuffs of French beaver. Some have only collars of fur, the cuffs being of self-material. Many are trimmed with silk stitching or are embroidered in delicate shades. All are interlined throughout with floral or plain material.

Colors dark brown, sand, taupe, castor, beaver and fawn. Sizes 16 to 42.

**Now for a Sale of  
Lovely Art Silk Scarfs \$3.50**

Regular Values to \$5.00

150 radiant scarfs in a bewildering variety of color combinations, stripes and heather mixtures will be reduced to \$3.50 for Tuesday. They are generously long and wide and are extra good quality. For your own sake or someone else's (seeing it's nearly Christmas) don't miss seeing these.

Neckwear Section—Main Floor.

**Men's Overcoats  
Go Fast, \$14.95**

Just a small group, billed for clearance. You may not want a good overcoat at a rich saving. They're all comfortable, well made, full lined coats in double breasted style with raglan or regular sleeves. Models for young men and old.

**Leather Lined  
Overcoats, \$30.00**

The half leather lining is a new revolution which will catch the fancy of a great many men. It's warm protection from wind and cold; means extra service too. These good coats are of heavy wool blanket cloth in heather shade with a checked back; raglan shoulders, all around belts and patch pockets with flaps.

**Another Day of the Sale  
Work Gloves and Mitts, 75¢**

It's a big sale. Work gloves and mitts worth up to \$2.50 in lots. Of men are buying more than one pair. You'll find lined mitts, pullover mitts, lined driving gauntlet mitts, and unlined short work gloves; of such leathers as horsehides, calfskins, sheepskins, buff calves, better minkies, also horsehide face and minkies back. All sizes.

**Tuesday Ramsey Store Features  
300 New Pullover Sweaters**

**Special \$1.95**

One of the smart things air-pullover sweaters have done this year is to choose a high round neck that must be finished off with a trim little collar of linen or flannel or beach cloth. Such are these at the special price of \$1.95—special because they were specially purchased by our buyer just back from the east.

They are very fetching, being knitted in a novel checker-board stitch from fine union yarns. The style is interesting—lisseons of line and you get a slender tasseled cord girdle. The sleeves are long and have turned back cuffs with a crocheted edge.

In color mixtures of navy and pearl, emerald and pearl, turquoise and pearl, peacock and camel, and scarlet and camel. Sizes up to 42. Featured Tuesday at \$1.95—300 of them!
